

BENEFITS OF CONNECTED SERVICES

Connected Services

Your vehicle offers state-of-the-art connected services that are powerful and easy to use. Enjoy the peace of mind that comes with added **safety**, **security** and **convenience** features that are there when you need them most.

Mobile App

Connect to your Chrysler, Dodge, Jeep, Ram vehicle from virtually anywhere!

Your whole world is on your phone. Now, that includes your vehicle. With the your vehicle's branded app, you can take driving to a whole new level—before you ever get behind the wheel. You'll have more convenience, more control and more peace of mind—right in the palm of your hand.

Not sure if you locked your vehicle? A simple tap puts your mind at ease.

Remote Services

Remote Horn and Lights: Sound the horn and flash the lights to help locate your vehicle in a crowded lot.

Remote Vehicle Start: Warm or cool your vehicle before you get in.*

Vehicle Finder: Forget where you parked your car? A quick tap allows you to view the location on a map.

Send & Go: Easily search, map and send locations directly to your vehicle's navigation system (requires Uconnect navigation).

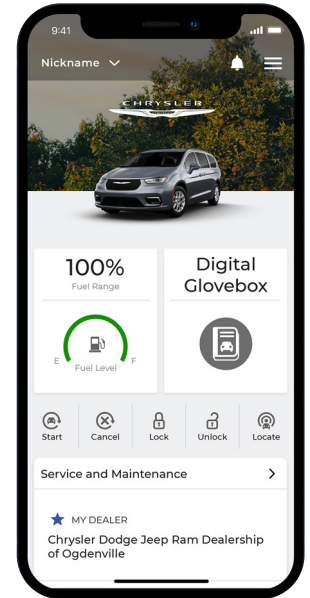

Smartwatch Integration: Get instant access to the app on your Apple® Watch or Android™ Wear.

*Remote Vehicle Start is not available on all vehicles.

Safety and Security

SOS Call: In the event of a minor collision, medical or any other emergency, press the SOS button to be connected to an agent who can send emergency assistance to your vehicle's location.

Automatic SOS: In an event where airbags are deployed, this hands-free service immediately connects customers with an agent. Agent can debrief responders and remains on line with customer until help arrives. *Limited availability

Automatic SOS is a security feature intended to contact emergency assistance. There are situations where the system may not function due to cellular network connection or electrical interruptions. Connected Services are dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or reach emergency support. Terms of service of the Uconnect and Connected Services Subscriber agreement apply. See terms of service for complete service limitations.

In the event vehicle occupants are unable to speak, emergency services will be dispatched based on the vehicle's last known GPS coordinates.

BENEFITS OF CONNECTED SERVICES

Vehicle Health Reports

Monthly Health Report: This report is delivered via email monthly and is also available in your app, allowing you to review the status of key vehicle systems and quickly determine if further action is needed.

Vehicle Health Alert: Receive an email alert if problems are detected with key systems under the hood. The alert informs you if you need to schedule an appointment with the service department.

More Connected Services

4G Wi-Fi Hotspot: Connect up to eight devices to your vehicle's private network – operates up to 50 feet away from your vehicle (subscription required).

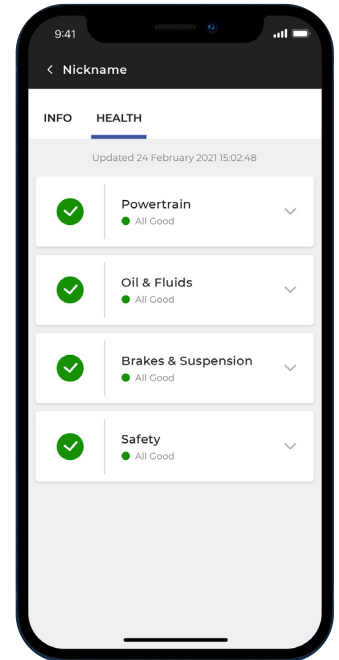

Alexa Skill: Command your vehicle using your voice and an Alexa-enabled device ... anywhere you use an Alexa-enabled device.

Online Search: Find places to eat, shop, relax and play – and find them faster, with search results provided by Google. Online Search works with your Uconnect navigation to conveniently deliver the best results.

Drive Alerts: Set Boundary Alerts, Speed Alerts, Curfew Alerts and Valet Alerts to receive text notifications based on where their vehicle goes, how fast it is driven, when it is driven and who is driving it.

Remote Software Updates: Never worry about updating your radio manually. Your connected radio receives updates over-the-air, so you are always equipped with the most up-to-date entertainment features.

Electric/Hybrid Pages: Put a charge in your day with Pages for your plug-in hybrid or electric vehicle. With information and controls displayed conveniently on the touchscreen in your vehicle, Electric and Hybrid Pages let you monitor and adjust select functions of your EV/PHEV system, including power flow, driving history, charging schedules, drive modes, vehicle range and more.
